4B2HK Magnificent Apartment

A Project by :

LET THE LUXURY FLOW IN YOUR LIFE

not for print

THE VAASTU SHASTRAS HAVE
OFFERED MANY BENEFITS TO THE
USERS OF A BUILT SPACE.

Man is the subject, object and the cause of architecture, He perceives and conceives architecture in relation to his experience of himself with the surrounding world. through the art of design, he alters and moulds the elements of natural environment the world comprises of five basic elements also known as the panchbhootas they are earth, water, air, fire, and space. out of nine planets, our planet has life because of the presence of these five elements. earth and Water has limited and localized availability. Our sages and seers have known the secrets of using all the five elements of this universe and their special characteristic and influences such as the magnetic field, gravitational effect etc of the earth the galaxy in the sky, the direction and velocity of the winds, light and heat of the sun including the effects of its ultraviolet and infrared rays. the volume and intensity of rainfall etc. for the advantage of mankind in suitably planning and constructing the building for dwelling, prayer, entertainment, working etc.

ENJOY EACH PART

Exterior that reminds you of the flow of life, The flow of emotions, The flow of professional works & last but not least the flow of happiness. In Raama Palacio II you will uncover peace and pleasure.

FRAMED FLUIDITY

For us at Uneven as architects, it becomes our responsibility to create residential spaces with a sensitive approach. Here we have tactfully attempted to design a fluid looking façade within a defined frame. The layout is uncluttered, spacious and welcomes a lot of natural light that fits perfectly for a modern Indian family.
